PROJECTS

1. Netflix Clone

Created a FullStack MERN Netflix Clone Project. In which I used MongoDB as a database, React+(HTML, CSS, JAVASCRIPT) for FrontEnd Designing purpose and Node.js+Express.js for server creation. This clone contains all the functionality of original OTT platform. You can watch, add list, like the show you want.

2. DrumKit

created a Drum pad kit using HTML, CSS & Javascript.

3. Fruit Slice Game

created a simple game using HTML, CSS & Javascript.

4. Guidingbeast

In August 2020, I created a website. Which I used to post content related to SEO(search engine optimization), blogging tips & Digital Marketing knowledge.
